Skills

OS

Linux, Mac

DEVOPS TOOLS

Docker,Github Actions,Kubernetes,
Ansible,Terraform,Packer

SECURITY

Container Kuberentes Security
GCP Security

OTHERS

Markdown,Git,

Programming

Golang
Python
Bash

Education

2016-2021

MTECH INTEGRATED

Vit Chennai

CGPA : 8.9/10

2014-2016

HIGHER SECONDARY

Sishya Matriculation Higher Secondary
School

Percentage: 95.5%

2013-2014

HIGH SCHOOL

Matriculation Higher Secondary School

Percentage: 95.4%

Experience

JULY 2019 - PRESENT **We45**

Security Researcher

- Conduct Cloud Security Audit for the clients
- Research and Create training material for the training platform

OCT-2020-DEC-2020 **Atlan**

Devops Intern

- Reduced the build time of CI/CD by making few changes in Github Actions
- Helped developers to deploy the application into Kubernetes
- Introduced the Security best practices for deploying the application in Kubernetes

NOV 2019-MAY 2020 **Practical DevSecOps**

Intern

- Created the course content for the Docker Security Course
- Contributed to DevSecOps University by creating the content for the project

Projects

2021-NOW **GCP Goat**

Security,Programming

GCP-Goat is intentionally vulnerable GCP environment to learn and practice GCP Security

2021-NOW **Securing your CI/CD Pipelines**

Security, Devops

In this project, I have implemented security in the CI/CD pipelines using the DAST, SAST tools and used terraform to provision the Infrastructure harden the Infrastructure using Ansible, and checked the compliance of the Infrastructure using the chef Inspec

2021-NOW **Terraform Learning**

Devops

In this project, I have created the small sub-projects which consists set of task which helps to learn the Terraform for beginners

Community Contribution/Certifications

2020-PRESENT **Conferences**

Speaker

Spoke and conducted workshop at many International conferences like Defcon,Bsides,Owasp and DevSecCon

2020-NOW **DevSecops Professional**

Certification

Cleared the DevSecOps professional exam in my first attempt
